

Quality Policy

Sponmech is committed to a policy of supplying a product and a service that meets agreed customer & applicable requirements.

This Quality Policy is appropriate to the purpose & context of the business & also supports the business strategic direction.

All top management & employees are committed to comply with ISO 9001 & applicable requirements and to continually improve the effectiveness of the quality management system (QMS). The Quality Policy is communicated & understood by all employees in the business.

This Quality Policy provides a framework to support all quality objectives implemented in the business. Quality Objectives will be implemented from key business measures that can help the business improve its performance, quality & customer service.

The business is committed to comply with all relevant statutory & regulatory requirements to ensure the safe operation at all times.

Management review meeting will assess the suitability of this Quality Policy.
